READING & WRITING

54 multiple-choice questions

Total time: *64 minutes* (two 32-minute modules)

READING

- Tests ability to draw inferences and conclusions from evidence, and to summarize and analyze arguments
- Made up of short passages—1 question per passage
- Passages come from a variety of texts (poems, plays, prose, and essays)
- Each module starts with a set of questions testing vocabulary within passages
- Some questions test graphics (charts, graphs) related to the passage

WRITING

- Tests grammar rules related to verbs, pronouns, transitions, sentence-structure, and punctuation
- Questions ask sentences within a passage or information from bulleted notes
- No graphics

MATH

44 questions total, includes both multiple-choice and student-produced questions

Total time: *70 minutes* (two 35-minute modules)

- Tests algebra, data analysis, arithmetic, and trigonometry (emphasis on advanced algebra)
- Provides commonly used formulas (ex. Pythagorean theorem, special right triangles, and area)
- Tests ability to apply Math concepts
- Calculator allowed on all questions
